Course Architect Pete Dye

It's the ambiance here first you see Caribbean, then the bay and the boats, then that big mountain. This land is incredible- the contours, the views the ruins, the setting. Here the topography has enough movement you don't have to create it

Opening Date April 25, 2010

8	Men's M	Men's L	Cadet L	Cadet L	Cadet XL	Cadet XL	Men's XL	Men's XXL	Men's XXL
9+	Men's ML	Cadet L	Cadet XL	Cadet XL	Cadet XL	Cadet XL	Men's XXL	Men's XXL	Men's XXL

- If your **Finger Length** and **Palm Width** match an entry in the table, try our recommendation first.
- If your **Finger Length** number is **LESS** than your **Palm Width** number you should wear a **Cadet** glove.
- If your **Finger Length** and **Palm Width** number differ by more than 2 you will want to try on several gloves to determine the best compromise.

Measure Finger Length

- Position hand so that the tip of the index and middle fingers touch the base of the index finger.
- Make sure hand contacts the bracket stem.
- Don't push hard on the peg.
- Slide the finger measurement gauge against the tip of the middle finger.
- Locate nearest line. This number is your **Finger Length**.

Measure Palm Width

- Pull flattened strip round your knuckles until snug.
- Don't tighten the strap too much.
- Find number on strap nearest your arm. This number is your **Palm Width**.

Determine Glove Size

- On the sizing chart above, locate your **Finger Length** and **Palm Width** numbers intersect.
- This is your **Recommended Size**.

Try on Glove for Optimal Fit

- Try on **Recommended Size** gloves.
- For proper palm fit, approximately ½ of wrist should remain visible.

Men's & Women's **LEFT** Glove Hand

Finger Length 1 2 3 4 5 6 7 8 9+
